Brintons Carpet Asia Pvt. Ltd.

Brinton is a carpet manufacturing company whose Indian head office is located in Pune. I build an offline portal of its whole range of carpets. The technology I used was **HTML, CSS, BOOTSTRAP, JAVA and MS ACCESS** as the database at the backend. It was a full fledge portal in which user needed to login and nd go through the range of series and then make a purchase. User authentication was also used so as to prevent any unauthorized user from access.

www.harindersohal.com

This website was based on a music director here in Amritsar. Its main objective was to highlight the complete profile of him. Its basic objective was the exposure of the work developed by him. So along with his achievements and history a multimedia portal was also to be developed so the user may browse and download from the list of audio and video. Technology used were **HTML CSS JAVASCRIPT BOOTSTRAP** in WORDPRESS
