Internship Experience

RayyForce Power Infra **May 2018 to June 2018 (2 Months)** **Operations Intern**

This internship proved to be an immense learning opportunity and also turned out as a platform to apply my management skills and knowledge.

Some of my key responsibilities were:

- Developing vendors and sourcing
- Monitoring multiple projects concurrently
- Updating client with daily progress

Work Experience

RayyForce Power Infra **Oct 2018 to Present (4 Months)** **Operations Manager**

After completing my internship, I got the offer to work at the same organization.

Some of my key responsibilities are:

- Inventory management and material planning
- Developing vendors and sourcing
- Monitoring, supervising multiple projects concurrently
- Updating client with daily progress
- Preparing quotations
- Additional role involves attending to head office requirements towards Documentation, Presentations, Proposals, Dispatches and Quality Assurance

VitalHealth Software **Jan 2016 to Aug 2017 (18 Months)** **Associate Software Engineer**

I worked on projects for international clients like Mayo Clinic US and Medtronic US.

My key responsibilities were but not limited to:

- Understand and analyze client requirements
- Create functional and technical design documents
- Develop the application as per the requirements

Projects at MMS

- Presented a business plan in college event “Court Martial” and stood first place in it.
- Participated in college event “FABS Market” and made a profit out of it.

Extra- Curricular Activities

- Hosted the event “Budget 2018”.
- Designer and Chief Editor of the Operations Specialization Newsletter for the Second and Fourth quarter of 2018.
- Was the member of “Cultural Committee” at VitalHealth Software for the year 2016-17.
- I play the classical music instrument “Tabla” and have cleared the first examination of the same.
