Career Objective

➤ I want to seek challenging and responsible position, and contribute my best to the organization by constantly improving my level of aptitude and skills.

Profile

- More than 3.10 years of Core Banking Solution(FINACLE 10x) experience. Currently, I am working as Senior Software Engineer for FINACLE Application in **Paytm Payments Bank**, Noida.
- I have 1 year of experience in ABAP/4 as a Jr. Sap Developer. Here I worked in all area of ABAP programming including Data dictionary, ALV, smart form , Module Pool programming, Report (interactive and Classical) for Creation and changes.

Work Experience

Company	Paytm Payments Bank
Duration	Jan-2019 to till date
Designation	Senior Software Engineer(CBS-Tech)

Role & Responsibilities:

- Currently working with INFRA as well support team for CBS.
- As a INFRA team member, I have to support environment related issues along with environment set up and currently we have set CBS2 env for reporting and testing purpose.
- Also we have set APDM set up for all different environments with the help of EV team.
- Also I am providing support for any UPI/IMPS/NEFT related issue with RCA
- I am also responsible for prepare/modify the SQL for reporting purpose and cron setup for same.
- Also I am getting KT for FINACLE assure related activity.
- Actively participating in weekly stand up meeting.

Company	IBM INDIA PVT LTD
Duration	From Feb-2015 to Dec-2018
Designation	Consultant

Role & Responsibilities:

*Client Name: **RBL BANK LTD, Mumbai.***

- Here I am assigned as L2 support for **FINACLE 10x** Application.
- Solving major issues related to different modules including saving accounts, Current Account, Term Deposits, Lockers, Inventory, Clearing, etc.
- I have also be a part of customization team, at where I have to fix the bug including some customization in existing system as per the business requirement.
- As a support team member, here I am also responsible for closing of the ticket in their TATs with proper resolution.
- I am also responsible for all the **DEPLOYMENT** (CUSTOM & PRODUCT) activity related to FINACLE application for TEST, UAT and PRODUCTION server.
- Here I am also providing the solution regarding to **CRM** module and **Payment (RTGS/NEFT/IMPS/CMS/IB)** module as well to operation team or end user.
- Here I am also responsible for issue simulation in UAT server, accordingly I have to provide solution in Production environment.
- Here I am also providing the support for IAP (**IBM ALPHA PROJECT**) module, this module is developed by IBM as per bank's requirement.
- IAP module is used for statement customization (i.e. Daily, Weekly, Fortnightly, Monthly, Quarterly, Half yearly and Yearly) and real time **SMS/EMAIL** alert for all the transaction done by end user or branches or Ops team on particular account.
- I am also aware about the environment setup for FINACLE application like service Configuration, port opening, setvar setup etc.
- Performing EOD /BOD operations along with generation and consolidation of reports.
- Currently I am working on API (**Application Programming Interface**) related project for all the module of FINACLE application. An API implementation helps to bank providing fastest way of services to user.
- Also we are actively participating with team members for sharing of knowledge and decrease dependency.
- As a part of support team, I am responsible for Raising TOL with Edge Verve(Product Team of FINACLE) for product bug by gathering RAC, simulation steps & debug logs and also following up with them for quick solution.
