ADVANCED ENGINE TECHNOLOGY

i-VTEC PETROL ENGINE

Honda's legendary 1.2L i-VTEC petrol engine with a programmed fuel injection system gives you a powerful combination of high power output and very high fuel efficiency.

Transmission	Mileage	Power	Capacity
MT	17.8 kmpl	88 ps	1198 cc
CVT	18.1 kmpl	90 ps	1199 cc

i-DTEC DIESEL ENGINE

Honda's revolutionary 1.5L i-DTEC diesel engine is from the Earth Dreams Technology series and is nothing short of an engineering marvel. This engine being light enables greater reduction in the overall weight of the vehicle, and consequently puts a much lower burden on the engine. Friction reduction innovations further reduce energy loss to give you an unparalleled mileage of 25.8 kmpl. With an engine capacity of 1498cc and better thermal management that lets you reach ignition temperature faster, combined with a turbo charger that adds extra air and boost, you get 100ps at 3600rpm of sheer power and unmatched acceleration.

Mileage	Power	Capacity
25.8 kmpl	100 ps	1498 cc

*Mileage as certified in Rule 115 of CMVR 1989.
Diesel engine power is rounded off under measured value.
