

## APPLICATION ANALYST

**TUSHAR GAIKWAD**

**CELL NO: 9890325188**

**Email:tusharsaheb44@gmail.com**

### OBJECTIVE

To take a challenging and high performance oriented role in the field of Information Technology and implement the expertise and experience gained in this field to develop complex project with efficiency and quality.

### Academics Qualification

Bachelor of Engineering (Computer Engineering) from Mumbai University.

### Technical Skills

- Application management in the UAT/Prod/Dev. phases. environment for SQL Server 2012, 2008, 2005, Oracle Databases , .Net, HTML as web technology & windows ,UNIX operating system.

### Professional Experience

#### 1) INDUSIND BANK.

**Designation: Application Support Executive: MARCH 2015-PRESENT**

- Problem Identification & Analysis: Analyze requirements and determine whether there is a valid concern in the problem reported by the users. Monitor application systems for which responsible by regular scrutiny of reports. Note problems and identify performance trends.
- Problem Resolution: Provide solution in the form of a Resolution (IE basic settings) or a Workaround or a Software Change. A software change involves strategy formulation, effort estimation, Cross Functional Impact Analysis, Module Development and Code Review, Final Delivery of components.

#### Page & Database level Support

- Troubleshooting and Resolution of application, Database level Bugs by using ASP pages and SQL.
- As per business requirement provide new front end control by using ASP and SQL.
- Deploying patches on Test & Live Environment for optimization or new business requirement.
- Providing MIS Data by using SQL commands as per user requirement.
- Managing databases, tables, views, stored procedures.
- Responsible for monitoring the scheduled jobs.

## **Platform**

SQL server 2008, ASP.net and VB.net

- Co-ordination with Business team, Internal IT stack holder (IT Infra/Development/DBA) Vendor for Implementation, Testing, Enhancement & maintenance resolve issues if any. To keep modular enhancement in the application.
- Track exchange, SEBI, RBI & Depositories (NSDL, CDSL) changes for smooth continuity of operations & ensure regulatory & compliance requirement are met.

## **A) Projects:**

- Working on **DE-MATRIX**-(Depository Back office Application) ,
- **LAS**(Loan against Shares),
- **PIS** (Portfolio Investment Scheme).
- **Emailer** (Auto/Bulk Email Application)
- **DPPS** (Depository Participant Billing System) applications.
- All above applications are back office systems for NSDL (National Security Depository Limited) and CDSL (Central Depository Security Limited) operation.
- They support all features of DPM and CDAS application in two parts this application are globally use by all DPs which is register under NSDL & CDSL.
- **DE matrix web & Desktop Application:-** DE Matrix, Auto mailer have been designed to automate the operational requirements of depository participants for NSDL & CDSL, by keeping in mind the operational flow at DP office. This system augments the depository system giving more system security in transaction processing and a robust billing, apart from automating host of back-office operations of DP.

## **B) Role Played:**

- **Project Execution:**  
Support and delivery of project on the allocated responsibilities. Participate in the discussion with business, manage & align vendors. Participate in Discussions, Conflict Resolutions, tracking of deliverables, monitor and escalate. Interact with internal and external parties to achieve timely and zero-defect project task executions  
Technical Issues analysis skill, Identifying resolutions jointly with Application Vendor and/ or Infra Systems Vendors , Server / OS / Storage experts, etc.
- **Vendor Management:**  
Managing vendors effectively for delivery for new applications, projects & enhancements. Interact with Vendor on-site / Off-Site Delivery Teams for getting deliverables as per Project Timelines, tracking slippages, ensuring quality of deliverables and necessary escalations. Ensure professional relationships with Vendors / Partners.
- **User Management:**  
Manage users and their expectations in an effective manner in order to have clear requirements, realistic expectations, and user buy in solution resulting in minimum gaps between delivery & expectation.  
  
Implementation of any new enhancements or products on respective Banking Channels:

Projects/Enhancements delivery within schedule time-lines and quality solutions. Assist seniors in New Initiatives for working out Project Plans, validate infrastructure requirements, Technical details, suggest Costs saving options, etc.

#### **Responsibilities:**

- Design analytical SQL
- Optimize SQL queries and ETL processes.
- Design tables, distributions, and organize and materialized views.
- Develop user defined functions, aggregates, and table functions.
- Translate user requirements and needs into database schema and table design.
- Implement and support data calculation, collection, and harvesting.
- Design and construct databases in SQL Server.
- Work closely with business analysts and data architects to support tactical and strategic objectives.

#### **Technical Proficiency**

- Operating Systems: Windows Server 2000/2003/2008/2008R2/2012, UNIX
- Languages: SQL, asp.net
- Databases: SQL Server, Oracle, MS Access
- Web Technologies: .Net , HTML

#### **Personal Profile**

Name : Tushar Dada Gaikwad  
Father's Name : Dada Namdeo Gaikwad  
Mother's Name : Shanta Dada Gaikwad  
Date of Birth : 5<sup>th</sup> July, 1991  
Gender : Male  
Marital status : Single  
Address : Shri Samarth Apartment, plot No-237, Room No-3/2, Sector-5, Sanpada,  
Navi Mumbai. 400705

I hereby declare that all the details furnished above are true to the best of my knowledge and belief. I also assure that I will discharge duties entrusted on me with utmost sincerity.

Date:

Place: Mumbai

Tushar Gaikwad.
