---

## **Additional Certificate**

Diploma in Software Testing from SEED Infotech - June 2014

ISTQB foundation level- Oct 2018

ISTQB Agile extension - March 2018

---

## **PROJECT DETAILS :**

**Virtusa consulting pvt ltd (currently working from Oct 2018)**

### **PROJECT #1:**

**Title :** Integrated liquidity module

**Client :** Citibank North America

**Application name :** Flexcube

**Role :** Consultant

### **Description :**

Oracle's liquidity management solution enables banks to run a single centralized standalone liquidity management solution based on contemporary technology with the ability to support comprehensive liquidity management techniques. The solution supports techniques such as pooling, sweeping, interest optimization and additional avenues for higher yield investments with the flexibility of catering to country-specific regulatory restrictions.

### **Responsibilities:**

- Prepare Test Plan, Test Cases and Test scenarios
- Test Data preparation using Oracle SQL
- Execute the job in Autosys as per test execution requirement.
- Mock up the partner files to check the application interface functionalities
- Analysis of Tibco access logs for verify the application connectivity with partners.
- Executing test cases and preparing daily execution report.
- Defect logging and tracking.
- On time escalations.
- Reviewing of test cases prepared by peers.
- Provide adequate support to the developers for defect analysis.
- Prepare Traceability Matrix between test cases and requirements.
- Send project daily status reports.
- Perform Functional, Integration, Regression and System Testing.
- Provide collective status report of the team to management.

---

**TATA consultancy services**

### **PROJECT #1:**

**Title :** Integrated liquidity module

**Client :** Citibank North America

**Application name :** Flexcube

**Role :** Test Engineer

**Description :**

Oracle's liquidity management solution enables banks to run a single centralized standalone liquidity management solution based on contemporary technology with the ability to support comprehensive liquidity management techniques. The solution supports techniques such as pooling, sweeping, interest optimization and additional avenues for higher yield investments with the flexibility of catering to country-specific regulatory restrictions.
