CAREER HISTORY

Software Developer

Eduramp Learning Services Private Limited, 2016 - Till Present

Eduramp Learning Services Pvt. Ltd. is a B2B Learning Solutions Company focusing ONLY on the Training Needs of the B2B Sector.
Since its inception, Eduramp Learning Services has successfully executed 3150 training with 122 clients across India.
With such huge numbers, the need of the hour within the organization was to put an application in place that will assist other stake holders to carry out their work in a more efficient manner.

Responsibilities

- Working closely with Account Managers, Resource Managers and Administrators to understand their pain points.
- Presenting ideas for system improvements.
- Producing detailed specifications and writing the program codes.
- Testing the product in controlled, real situations before going live.

APPLICATIONS DEVELOPED

MyELS.Online

This was an In House complete ERP solution, which keeps a track of every minute aspect of business starting from Training Request from the Client to Sourcing of Trainer and Ending of the training session by gathering the client feedback and invoice processing.

Trainer Pool

The entire trainer database was being maintained by this application, thereby helping the Account Manager, Resource Managers and the Administrators to carry out their search operations without having to depend upon the external sources such as LinkedIn.
